## DETAILED ACTION

### *Election/Restrictions*

Restriction to one of the following inventions is required under 35 U.S.C. 121:

- I. Claims 1, 2, 9-10, 17-23 in part, 24-25, and 32-37 in part, drawn to compounds in claim 1, classified in class 548, subclass 312.1.
- II. Claims 3-4, 11-12, 17-23 in part, 26-27, and 32-37 in part, drawn to compounds in claim 3, classified in class 549, subclass 416
- III. Claims 5-6, 13-14, 17-23 in part, 28-29, and 32-37 in part, drawn to compounds in claim 5, classified in class 548, subclass 359.1.
- IV. Claims 7-8, 15-16, 17-23 in part, 30-31, and 32-37 in part, drawn to compounds in claim 7, classified in class 568, subclass 303.
- V. Claims 38-40, drawn to methods of identifying decreased necrosis, classified in class 435, subclass 7.1+.

The inventions are distinct, each from the other because of the following reasons:

The above groups are identified as general areas. Accordingly, as groups, they are independent or distinct as the compounds of group I, II, III, IV, and V would be capable of use by more than one process, as seen in claim 9, claim 11, claim 13, claim 15 and claim 38 respectively. The compounds would be capable of more than one use, e.g. treating Lewy body disease, stroke, Alzheimer's disease, Huntington's diseases, etc., and separate search considerations are involved, which would impose a burden if unrestricted.

Because these inventions are distinct for the reasons given above and have acquired a separate status in the art as shown by their different classification, restriction for examination purposes as indicated is proper.

A telephone call was made to Kristina Bieker-Brady, Ph. D. on April 4, 2001 to request an oral election to the above restriction requirement, but did not result in an election being made.

Applicant is advised that the reply to this requirement to be complete must include an election of the invention to be examined even though the requirement be traversed (37 CFR 1.143).

Applicant is reminded that upon the cancellation of claims to a non-elected invention, the inventorship must be amended in compliance with 37 CFR 1.48(b) if one or more of the currently named inventors is no longer an inventor of at least one claim remaining in the application. Any amendment of inventorship must be accompanied by a petition under 37 CFR 1.48(b) and by the fee required under 37 CFR 1.17(i).
